Landscapes and geomorphology : a very short introduction ...

(The Very Short Introduction series is published by the University of Oxford, and because of that has a somewhat irritating focus on the UK--irritating to me, at least.) Topics covered include: -Geologic time and its influence on geomorphology. -History of geomorphology and geology and the advancement of theory up until plate tectonics.

Geomorphology - Wikipedia

Landscapes are all around us, but most of us know very little about how they have developed, what goes on in them, and how they react to changing climates, tectonics, and human activities. This Very Short Introduction discusses the key ideas and methods used to study and examine landscapes, and their importance in cultural terms.

Landscapes and Geomorphology: A Very Short Introduction ...

Geomorphology (from Ancient Greek: γῆ, gē, "earth"; μορφή, morphḗ, "form"; and λόγος, lógos, "study") is the scientific study of the origin and evolution of topographic and bathymetric features created by physical, chemical or biological processes operating at or near the Earth's surface. Geomorphologists seek to understand why landscapes look the way they do, to understand ...

Landscapes and Geomorphology: A Very Short Introduction by ...

The structure of Landscapes and Geomorphology is entirely logical, starting with the familiar and historical perspectives, examining the influence of tectonics and climate, seeing the interactions between landscapes and man from more than one perspective, and finally discussing the exotic—the deep ocean floor, Mars and Titan. All this is ...

Landscapes And Geomorphology A Very

Landscapes and Geomorphology: A Very Short Introduction Andrew Goudie and Heather Viles Very Short Introductions. Presents a clear introduction to landscape and the methods and techniques used to study it;

Considers our effects on the landscapes around us, in the past, present, and future

Landscapes and Geomorphology: A Very Short Introduction ...

The 'discovery' of planetary and marine geology.-A fairly uninteresting (and out-of-place) look at geomorphology and culture.The chapters on anthropogeomorphology, climatic effects and how man's studying the alien landscapes of distant planets and the ocean floor were very worthwhile, making me particularly curious of planetary geology.

Landscapes and Geomorphology: A Very Short Introduction ...

Landscapes and Geomorphology: A Very Short Introduction presents an introduction to landscapes and the methods and techniques used to study it. Examining what landscapes are, and how we use a range of ideas and techniques to study them, it is demonstrated how geomorphologists have built on methods pioneered by 19th-century scientists.
